OBJECTIVE: To obtain a professional career in the field of computer science.

EDUCATION:

High School, Coppell High School: *June 2018, GPA 5.2471/5.0*

B.S. Computer Science, The University of Texas at Dallas: *(Current) May 2022*

SOFTWARE SKILLS:

Programming Languages: JavaScript (JSON, Async, Node), Java (including Android), C++

Web Languages: HTML5, CSS3 (SaSS)

Databases: MongoDB

Libraries/Frameworks: Bootstrap, jQuery

AREAS OF INTERESTS: Software Development, Mobile Development, Full-stack Development

PERSONAL EXPERIENCE:

Software Development Intern – Kamusi Project *September 2018 – Present*

- Work with back-end technologies like NodeJS and MongoDB.

Founder and President of App. Development Club *September 2017 – May 2018*

- Managed and Guided many aspiring high school students on the development of mobile applications.
- Programmed many mobile applications in various hackathons, in which “BitText” – a mobile application that sends text messages using the blockchain network, received third place at the *SevenTablets Annual Hackathon 2017*

PORTFOLIO/PROJECTS:

- **BitText:** *Android Application*, an app that utilizes the blockchain network to send messages. Won **Third** place at the SevenTablets Annual Hackathon 2017.
- **iCycle:** *Android Application*, an app that allows users to scan various objects and replies whether the object is recyclable or not.
- **KannaBot:** *Web Application*, a discord bot application that does all sorts of things from moderating servers to monitoring the crypto market. Gained experience in using API's and code optimizations
- **SitNEat:** *Full Stack Application*, a scalable project with the potential to become a startup. Still under development. First big project, and first experience developing a project in a large group.

HONORS/AWARDS:

- **SevenTablets Annual Hackathon 2017 Winner:** Awarded third place for creating a mobile application “BitText”.
